ANNOUNCEMENTS.

FOR CIRCUIT COURT CLERK.
F. D. Daniel.—We are authorized to announce F. D. Daniel as a candidate for re-election for Circuit Court Clerk at the ensuing August election.

FOR REGISTER.

James A. Grant.—We are authorized to announce James A. Grant as a candidate for Register for Montgomery county, at the ensuing August election.

Notice to Subscribers.

All persons indebted to the CHRONICLE for subscription are earnestly requested to settle same at once, so that accounts may be closed. Either Brandon & Barksdale, or W. P. Titus will receipt for same.

Mrs. W. H. McCauley is in Nashville.
Miss Ada McGee is on the sick list this week.

Mrs. W. B. Sheldon is visiting friends in Atlanta.
R. F. Fields, of Glenellen, was in town this morning.

J. W. Rice and J. C. Turner, of Dover, are in the city.

L. A. Ragdale and wife are in Louisville, to hear Patti.

J. R. Edmundson, of the south side, was in the city to-day.

Miss Lennie Turnley has returned from a visit to Trenton, Ky.

Louis G. Munford and wife will arrive in the city to-morrow.

News comes to the city to the effect that Wm. Wall is dangerously ill at his home near Grantville.

Capt. McCauley, of Glenellen, is in the city. He has his valise with him, and looks as if he had "come to stay."

Judge J. C. Stark, of Springfield, died yesterday. For years he presided over the Circuit court of this district, and was well known and esteemed.

New Frames.

I have just received a lot of extra nice frames, from cabinet up to 14 x 17, in velvet and metal, which I will sell very cheap.
mar 5 2w. W. J. MacCORMACK.

School Suspended.

Howell school suspended the third floor, or high school this morning on account of the heating apparatus getting out of fix. The entire school could not be made comfortable, and Superintendent Graham sent the children of the third floor home.

The Bending Works.

Mr. McKesson, of the Bending Works, arrived in the city this morning. When interviewed by a LEAF CHRONICLE man he had not seen the committtee, and was non-committal as to future moves. An effort is being made to have him locate on the lands near Sailor's Rest, which from an economical standpoint, has its advantages, but we are sure he prefers the greater advantages, to his family, of locating in Clarksville.

"Our Boy John."

The Members of the Y. M. C. A. have secured William Edwin Hall, editor of the New York Christian, to deliver a lecture here on Tuesday night, March 18. The subject will be "Our Boy John." The Rev. F. V. Brown, of Auburn, N. Y., says: "William Edwin Hall, editor of the New York Christian, is a lecturer of rare ability. A natural actor, he impersonates those characters he introduces in a truly life-like manner; is brim full of wit, humor and pathos, which he most delightfully blends. All who had the good fortune of hearing him in this city are desirous of hearing him again."

The LEAF CHRONICLE predicts a good house and a pleasant and profitable lecture from Mr. Hall.

THE MAILS.

An Unnecessary Delay at Guthrie.

There has been no little inconvenience and delay, caused of late by the Johnsonville bridge across the Tennessee river being out of repair. Passengers and mail from Nashville and points beyond for Memphis are sent via Clarksville, and the evening train is held at Guthrie until a late hour at night to catch the express leaving Nashville at 8 p. m. A person leaving here on the early morning train goes to Nashville all right, but when he returns he is held at Guthrie several hours to accommodate people waiting to go to Memphis. The contractors for the repairs on the Johnsonville bridge have thirty days yet in which to get the work far enough advanced for trains to pass over, hence there is no hope for relief unless the management of the L. & N. should have the south bound evening train come on to Clarksville on its regular time and go back to Guthrie to connect with the express from Nashville. The time spent lying at Guthrie is ample for this, and it should be done. The management of the L. & N. have no right to put a whole community to inconvenience as is being done now.

The River.

The Cumberland is still rising and the situation is assuming alarming features. The rise last night was about four inches, and it is rising today at about the same rate.

Negroes living in the cabins adjoining Kendrick, Pettus & Co's. warehouse, on the north, are forced to leave their houses and seek shelter elsewhere. Some five or six families have been compelled to vacate since noon of yesterday.

The water is now in the cellars of the Elephant warehouse, the tobacco, however, has been taken out and no material damage is apprehended by the owners. T. D. Luckett & Co., were forced this morning to stop their engine on account of the draft from below being cut off by the water. They will be compelled to suspend in their drying room for the time being.

It is thought by river men that the water will reach its height to-day, though the snow that is now on the ground, and the fullness of the Ohio, will certainly hold it up for several days. There is no telling when work can be resumed along Front street.

An Explanation.

In your yesterday's issue you mention the destitute circumstances of some families at foot of Commerce street, and that the men work in the saw mills, and on account of high water are out of employment, and have no means to buy bread. We simply wish to state that none of the men are employed by us, neither do we when our hands are out of employment allow them to want for means to buy bread, or any of the necessities of life.

CLARKSVILLE LUMBER CO.

Excellent Appointments.

The selections of Dr. Beach and A. Howell as school commissioners by the Board last night, could not be improved upon. Dr. Beach does thoroughly every thing he undertakes, while no man in the city puts a deeper interest in the schools than Mr. Howell. He served in the same capacity a number of terms several years ago, and so efficient and unflinching were his interests in and work for the schools, that his resignation was regarded almost as a calamity. His return to the Board will be hailed with pleasure by all friends of the public school system.

Sickness Among Children.

Its cause is undoubtedly to be found in the way they are fed, and the neglect of their medical treatment. Many mothers are strong in their belief of the good state of health of their little ones, and it is only when sickness in a mild or strong form comes upon them that the mother fully realizes the mistake of her over-confidence, and thus unwittingly brings painful suffering to her child and uneasiness and trouble to her own heart. To prevent such a state of affairs give your children Dr. Winchell's Teething, as a curative for diseases common children, it has no equal—a trial of one bottle proves it. For sale, wholesale and retail, by Lockert & Reynolds, druggists.

Sickness Among Animals.

Animals are very subject to worms, and while such worms exist in them they cannot thrive, the food that should strengthen and nourish the animal is absorbed by the worms; hence, the animal will have a good appetite and still continually grow poor. To obviate this difficulty, give them frequent doses of Uncle Sam's Condition Powder. It is an excellent preventive of disease among them, and as a positive cure for sickness common to animals it has no equal. It is guaranteed. For sale, wholesale and retail, by Lockert & Reynolds, druggists.

Avoid Appearances.—A worthy gentleman, having an unusually red nose, was long suspected of being a tippler on the sly, by those not well acquainted with his strictly temperate habits. His unfortunate disfigurement was readily cured by the use of Ayer's Sarsaparilla.

Gerhart & Sons have just received a full line of white goods, Hamburg edgings and laces. diw.

CITY COUNCIL.

A Lengthy Meeting At the City Hall Last Night.

Streets and Street Cars Received Considerable Attention.

The Two Illuminating Companies Pitted Against Each Other For a Chance To Light the City.

There was a very lengthy meeting of the city council last night, continuing until 11 o'clock. Mayor Ligon called the board to order, all the aldermen being present except Crouch and Beaumont, they however, came in later.

The minutes of the last meeting were read and approved and the board went regularly to work. Bills for the month were audited and ordered paid.

The first thing that came up of any importance was that of the Street Car Company, submitting a proposition to the city through Capt. Gracey. The Captain appeared before the board and said that in view of the fact that there was a misunderstanding between the Street Car Company and the city, he wanted something done to remedy same. He proposed that the city council appoint a committee to go through the books and examine the earnings of the Street Car Company, and decide on some basis of taxation that would release the company from any responsibility in regard to keeping streets in repair. In a nutshell he wanted to pay the city for the privilege of running the street cars, and let the city government keep up the streets. He thought this the only way they could ever come to an agreement on a question that had given both sides considerable trouble. The proposition was very favorably received and a committee was appointed to examine the books and report the same to the next meeting of the board.

R. H. Burney, attorney for Jno. Tanner, appeared before the board and wanted the city to release a fine of \$50, which had been assessed against his client. The grounds upon which this petition was made, was the fact that Tanner's wife had become security for the fine and that her home would have to be sold to pay it. He also thought that the State had punished him enough, and that through charity the fine should be released. Petition granted.

The resignation of Fred Williams, as school commissioner, was received and Dr. Beach put in his place. A. Howell was also elected school commissioner, to take the place of Jno. W. Faxon.

The next item of interest was a basket full of petitions from property owners wanting releases from what they allege is a too altitudinous rate of taxation. These matters were finally disposed of and the board passed on to street improvements.

Alderman Gilbert made a motion to repair Eighth and College streets. He said they were in a wretched condition and that nothing had been done with them for several years. He thought it high time that Clarksville was taking some steps in this direction. He wanted the two streets graded well, and made such as would be in keeping with other streets of the city. Dr. Beach sailed into him and said that he thought as soon as the plans and specifications for a sewerage system had been made they would find out that a sewer would have to be laid along College street, and to put the street in good repair now and tear it up then would be a useless expenditure of money. The motion made by Mr. Gilbert was finally agreed to so far as it pertained to Eighth street. That clause looking to the repair of College street was lost.

The fire department received considerable attention. The fire committee was ordered to see that repairs be made on the engine at once.

Alderman Wake had his pocket slap full of pavement ordinances from the Second ward, and he got them through. These pavements are to be made on well rammed and solid foundations, and are to be put in at once. Martin Elder must put one in front of the house occupied by Sylvia Sullivan. The material has already been hauled and put at the place, and Martin was given due credit for same last night.

Another one is to be constructed between the property of the Kincannon estate and the Tobacco Board of Trade.

Capt. J. J. Crusman shall put one in front of his warehouse on west side of First street.

Kincannon, Son & Co. were ordered to construct forty-six feet in front of their property on west side of First street.

Mrs. J. Michel was ordered to have a pavement put in front of property on east side of square. In addition to the above the pavement around the market house must be put in good repair.

confer with the same committee. Both were referred to the committee on lights.

After a long and heated debate on the subject of a well that had been dug near the double pond to drain water from property, the board adjourned.

What will the 1890 Burley Crop Show?

Western Tobacco Journal.]

We hear quite a number of reports from the Burley belt of tobacco beds already burned, and in a number of instances of seed sown. It is the general belief that the planting this year will be as large a crop as in 1888, and possibly larger, from the fact that the Burley belt has increased considerably in area, by the fairly successful results in the Henderson and Owensboro districts, as well as in counties in Southern Kentucky, where it is said the land has the limestone formation so favorable to the development of good Burley tobacco.

There seems to be no general discontent with values received for the 1889 crop, although a very large part of it is yet in the hands of planters, as well as considerable of the 1888 crop, and it is taken for granted that the setting in the older districts will not be curtailed, and the early preparation of plant beds in these districts seem to bear out this conclusion. Whether the weather during the growing season will be favorable to the crop is a question.

Some of the oldest and most observant are inclined to the belief that the season will be dry, arguing that there has been so much rain the past full and winter that there must be a compensating period, and they look for this season to come in the late spring and summer, and if this should prove true, providence would again spoil the plans of the over-anxious planters, and give this type another chance to maintain for a little while longer a value something better than is now paid for dark export tobacco. With a crop realized equal to what will probably be planted, there would likely be a depression in values that would neither be advantageous or pleasant for planters or speculators, and which it would take years of curtailed planting or unfavorable seasons to fully recover from.

Remember that Ayer's Cherry Pectoral has no equal as a specific for colds, coughs, and all affections of the throat and lungs. For nearly half a century it has been in greater demand than any other remedy for pulmonary complaints. All druggists have it for sale.

What a Fortune

Is a good healthy, pearly skin. Few are aware of the short time it takes for a disordered liver to cause blotches on the face, and a dark greasy skin. One bottle of Beggs' Blood Purifier and Blood Maker will restore this organ to its natural and healthy state, and cleanse the blood of all impurities. It is meeting with wonderful success. We guarantee every bottle. McReynolds & Co., Druggists.

Beggs' Cherry Cough Syrup

Is giving splendid satisfaction to the trade and the sales are positively marvelous, which can be accounted for in no other way except that it is without doubt the best on the market. Ask for and be sure you get the genuine. We keep it. McReynolds & Co., druggists.

A Good Cough Syrup.

There is nothing parents should be so careful about as selecting a cough syrup, Beggs' Cherry Cough Syrup costs no more than the cheap and inferior nostrums thrown on the market. The best is none too good, be sure and get Beggs' Cherry Cough Syrup. We keep it on hand at all times. McReynolds & Co., druggists.
